DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Schaefer '962. Schaefer discloses an apparatus for earth working and ground leveling (figures 1-6) comprising a trailer (generally 10) having a hitch assembly (as seen in figure 1, area of reference numeral 14), a grader (generally 12) secured to the trailer; the trailer further including a carriage frame 18 secured to the grader (as seen in figure 2), the carriage frame including wheel support assemblies (58,78,60, etc) having a lateral directed axis (as defined along member 58) and support wheels 20 as well as a first actuator 70 for raising the support wheels relative to the grader. Further, Schaefer discloses the device having a second actuator 86 and a mechanism (18,80) connecting the first and second actuators with the opposed end of the second actuator connected to a trailer arm 98, whereby through extending and contracting the two actuators different relative positions of tools and the wheels axes can be achieved (as seen in figures 3 and 4).
